FORTRESS WEB COMPLIANCE

Free Compliance Scan Report

Website: https://fortresswebcompliance.com

Report generated: 2026-10-17, 3:17:54 p.m.

41 available check results - 5 Fortress checks flagged - 2 top Lighthouse recommendations

Google PageSpeed mobile lab scores (submitted URL)

Accessibility: 100 / 100
Performance: 74 / 100
SEO: 100 / 100
Best practices: 100 / 100

Top Lighthouse recommendations:

- Largest Contentful Paint
- First Contentful Paint

Crawl summary: 17 page attempts

0 of 17 page attempts have at least one flagged finding requiring review.

Accessibility & search - main page - Grade A

REVIEW PDF documents

2 PDFs linked - PDFs need manual review; applicable legal requirements depend on scope and accessible-format duties.

NO FLAG Page language declared

Screen readers need this to pronounce content correctly.

NO FLAG Image alt attributes present

All 3 images checked have a description attribute.

NO FLAG Potential form label signals

No missing label signals detected; an ID alone does not prove a usable label.

NO FLAG Main heading present

A clear main heading helps screen-reader and search users.

NO FLAG Page title

"Fortress Web Compliance | Ontario Web Accessibility"

NO FLAG Search description

A suggested search description; Google may show different text.

NO FLAG Mobile-friendly setup

Lets the page fit phone screens.

NO FLAG Zoom allowed

Zoom restrictions may impede low-vision users; actual behavior needs testing.

NO FLAG Links have readable names

No missing link-name signals detected; accessible names require rendered review.

NO FLAG Link text is descriptive

No vague "click here" links found.

NO FLAG Buttons have readable names

All 2 buttons have name signals in HTML; verify rendered accessible names.

NO FLAG Embedded content is titled

Embedded content is titled or none found.

NO FLAG Headings in logical order

Heading levels follow a logical order.

NO FLAG Skip-to-content link

Skip-link pattern found; destination and keyboard behavior need testing.

NO FLAG Main content area marked

Main content region is marked.

NO FLAG Natural keyboard order

No positive tabindex detected; actual focus order and keyboard access need testing.

NO FLAG No auto-playing media

No auto-playing media found.

NO FLAG Unique element IDs

No duplicate IDs.

NO FLAG No broken links

10 links checked, all working.

Sampled-page HTML sweep (11 pages) - Grade A

NO FLAG Language signals on sampled pages

All sampled HTML pages declare a language; validity requires review.

NO FLAG Main heading on sampled pages

Every sampled HTML page has an H1; quality requires review.

NO FLAG Zoom restrictions on sampled pages

No sampled page has the checked zoom restrictions.

NO FLAG Skip-link patterns on sampled pages

Every sampled page has a recognized skip-link pattern; behavior requires review.

NO FLAG Unique page titles

Sampled page titles are distinct.

NO FLAG Image alt attributes on sampled pages

All 13 images across 11 pages have descriptions.

NO FLAG Button-name signals on sampled pages

Buttons have names on every page scanned.

Security headers - MDN Observatory grade - Grade C

REVIEW Content protection policy

Limits what scripts can run - helps block hacking attempts.

REVIEW Clickjacking protection

Stops other sites from disguising your pages.

NO FLAG Secure connection (HTTPS)

Site loads over an encrypted connection.

NO FLAG Redirects insecure visitors

Visitors typing http:// should be sent to the secure version.

NO FLAG Forces secure connections (HSTS)

Tells browsers to always use the secure version.

NO FLAG File-type protection

Prevents browsers from misreading files as code.

NO FLAG Hides server software

Publishing software versions helps attackers target known flaws.

Policy and contact signals - not legal compliance - Grade A

NO FLAG Accessibility statement

Checks for an accessibility-related link, not policy contents or legal compliance.

NO FLAG Accessibility feedback/contact

People must be able to request accessible formats or report barriers.

NO FLAG Privacy policy

Checks for a privacy link; legal duties and policy adequacy depend on actual practices.

NO FLAG Cookie / consent notice

Tells visitors how tracking is used.

NO FLAG Terms of use

Sets out the rules for using the site.

PDF documents (2 checked) - Grade F

REVIEW PDF: sample-scan-report.pdf

Heuristic signals: no tag marker found in inspected bytes, no language marker found in inspected bytes, no title marker found in inspected bytes. Only the first 2 MB were inspected; compressed objects can hide markers. Review the full document manually.

REVIEW PDF: aoda-training-certificate.pdf

Heuristic signals: no tag marker found in inspected bytes, no language marker found in inspected bytes, no title marker found in inspected bytes. Only the first 2 MB were inspected; compressed objects can hide markers. Review the full document manually.

What this means

Our remediation standard: WCAG 2.2 Level AA. Ontario's AODA website requirements name WCAG 2.0 Level AA as the legal baseline.

Ontario public-website rules generally apply to businesses and non-profits with 50+ employees, subject to statutory scope limits and exceptions. Businesses and non-profits with 20+ employees also have reporting obligations. A full evaluation needs human review, including keyboard and screen-reader testing.

This scan does not test every WCAG 2.2 Level AA requirement or certify compliance. Google mobile PageSpeed analyzes the submitted URL; up to 500 discoverable same-host pages receive Fortress HTML checks. PDF indicators examine up to six linked files, not full tagging or reading order. Grades are tool summaries, not legal determinations.
